2002-2007: member of USC's novice and varsity rowing teams; bronze medal at Head of the American, silver medal at Pacific Coast Rowing Championships

### **About Me**

I started rowing as a walk-on at USC as a way to stay in shape. After all the difficulties I had the first week of practice, my first day on the water made it all worth it! I'd never been on an athletic team before college, but after that first day, I knew I'd found something I would do for the rest of my life. During my time on the USC team, I was lucky enough to be on several historic teams; the team earned their first and second team bids to NCAAs (2005 & 2007), swept the varsity races at San Diego Crew Classic, earned the school's first #1 ranking, and finished a school best 5th at NCAAs. After finishing my degree in Astronautical Engineering and Music, I was lucky enough to continue rowing and coxing Lions RC. Lions gave me the opportunity to race all over the west coast and introduce me to coaching. In coaching, I've been able to pass on my passion and enthusiasm for the sport I love to rowers of all ages and abilities. I'm so excited to be a part of the revamped program here at LBRA!
